

Shamrock the Ville and Running O' the Green Policy Statement

Protecting our shared environment is of fundamental importance to Running O' the Green/Shamrock the Ville, as it is to our committee members, vendors and volunteers. To support this common goal, we will:

- Comply with applicable local, state, and federal environmental regulations.
- Continually improve the environmental performance of our products and processes.
- Protect the health and safety of our participants and volunteers and surrounding communities and ecosystems.
- Use natural resources, including raw materials, energy, and water, as efficiently as possible.

We will work to achieve these commitments by:

- Evaluating products and processes from the point of view of chemical risk, dedicating ourselves to finding better alternatives based on preventing pollution in the first place.
- Considering the risks of our raw materials and products at all stages of our product's life, placing priority on risks present during our production process and during our customers' use of our products.
- Working collaboratively with our participants, vendors, and the surrounding community on environmental issues.

We will make every effort to ensure that environmental performance is an integral part of

Running O' the Green/Shamrock the Ville's performance and of the performance of all of our participants, vendors and volunteers. To this end, we will measure and periodically report on our progress in realizing these commitments.

Maria Swindell Gus, Bartlesville Convention & Visitors Bureau
Green Manager
